

DOOFOR INC.THE COMPANY

Enhance your solutions with efficient and versatile rock drilling

Doofor Inc. produces always reliable and powerful rock drills, drifters and their spare parts. Doofor drilling technology stands for endurance and highest technical quality in the industry: our unique products are designed to endure even the most demanding environments. As a Scandinavian pioneer in the drilling industry, we are constantly developing powerful, durable and most advanced rock drills for various hole diameters and uses.

Your partner from product development to end-user service

Doofor helps you to differentiate your product or service with flexibility, dedication and creative and modern technology. Highly skilled workforce and subcontracting network enables quick and tailored rock drill solutions for all platforms. Doofor works closely with customers and end users in finding economical and durable solutions. Doofor provides product development, design, manufacturing, training, maintenance and spare parts for rock drills.

DOOFOR INC.PRODUCTS

Competitive Doofor rock drills with latest technology offer multiple benefits. It's an honor to provide always the best and most advanced options available such as good drill steel economy and efficient lubrication. Modern self-developed high-frequency technology enables fast penetration with less stress to the drill tools. Patented and optimal percussion piston shape and enhanced shock wave transmission provide economic efficiency.

Doofor's high performance hydraulic rock drills can be installed in any drilling platform (hydraulic drill rigs, drill jumbos, etc.). Customizable Doofor solutions provide freedom for boom structure and easier retrofitting. Along with the rock drills, Doofor offers aluminium profile to suit the lighter rock drills. Doofor also provides a hydraulic feed system component kit for OEM's and machine building professionals.

FROM NOKIA, FINLAND WITH DEDICATION

Unique Doofor drills are known as powerful, reliable and durable worldwide.

We ship to all continents and base our business in long-term customer partnerships.

We concentrate solely on the rock drills. Our business is to enhance yours.

DF430X HIGH-PERFORMANCE HYDRAULIC ROCK DRILL

Doofor DF430X is lightweight high-frequency rock drill for general excavations, quarrying and bolting. It can utilize air or water flushing. The rock drill has a female hexagonal chuck.

TECHNICAL SPECIFICATIONS

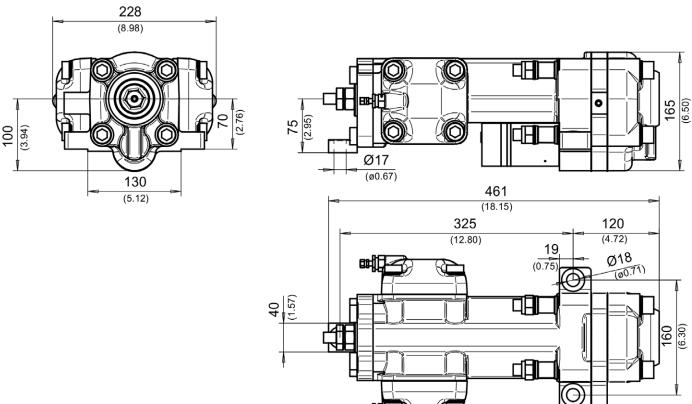

DOOFOR DF430X DRIFTER

FLUSHING AIR FLOW 1)		700-1200 l/min	185-317 gpm
FLUSHING WATER PRESSURE 1)		4-12 bar	58–174 psi
FLUSHING WATER FLOW 1)		15-30 l/min	4-8 gpm
FLUSHING TEMPERATURE		3-30°C	37-86°F
RECOMMENDED MAXIMUM FEED FORCE		3.7 kN	830 lbf
OPTIMUM OIL OPERATING VISCOSITY		30-60 cSt	
MAXIMUM OPERATING OIL TEMPERATURE		70 °C	158 °F
WEIGHT		41 kg	90 lb
SHANK SIZE		108mm [4 1/4"] * 22mm [7/8	3"] or 25mm[1"]
HIDIERMITTENT VALUE			

1) Intermittent value

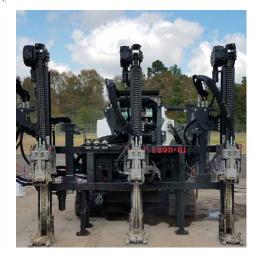

DF430X has alternative models: DF430S with a male shank adapter, versatile DF430F with a female shank adapter and light piston models DF420X and DF410X.

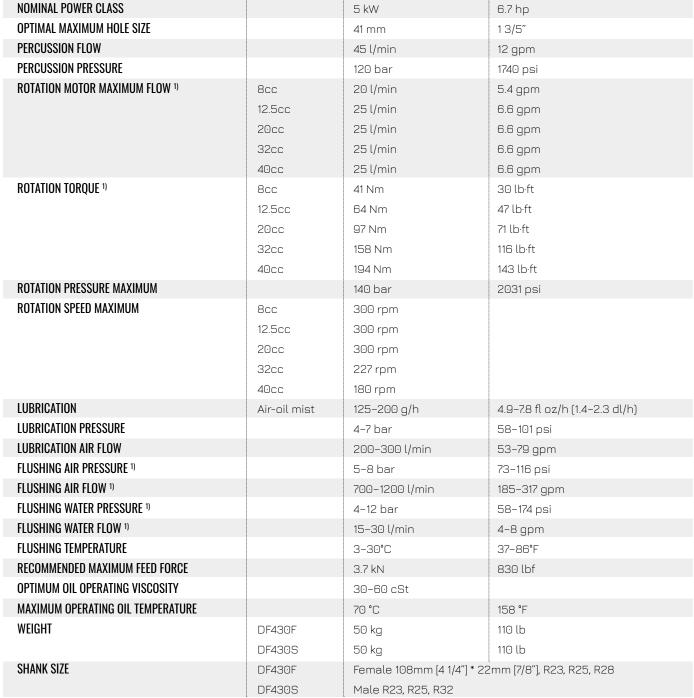

DF430F AND DF430S HIGH-PERFORMANCE HYDRAULIC ROCK DRILLS

Doofor DF430F and DF430S are lightweight high-frequency rock drills for general excavations, quarrying and bolting. DF430F combines sealed air or water flushing system with female shank adapters. DF430S utilizes male shank adapters with air or water flushing.

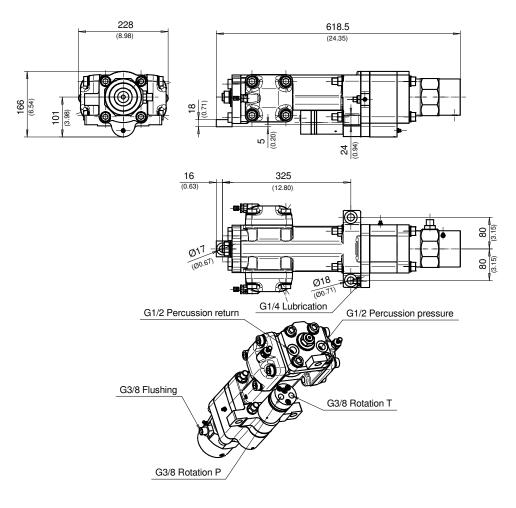

DOOFOR DF430X AND DF430S DRIFTERS

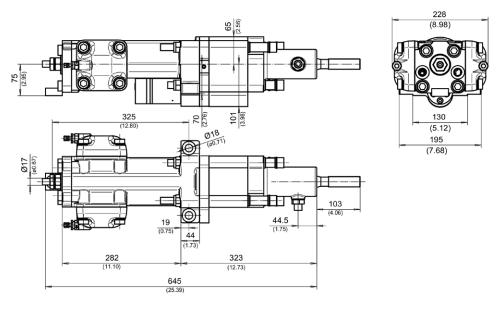

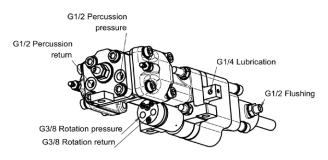

1) Intermittent value

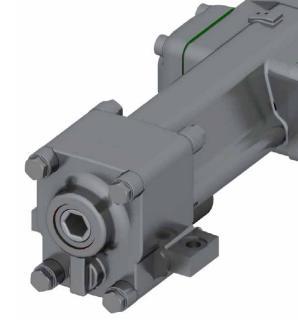

DF500X HIGH-PERFORMANCE HYDRAULIC ROCK DRILL

Doofor DF500X is a high-power and high-frequency rock drill for general excavations, dimensional stone quarrying and other quarrying. The rock drill is equipped with a hexagonal female chuck. The rock drill uses air flushing.

2) Actual values vary according to drilling conditions and equipment.

Alternative model DF500S with male shank adapters and water flushing capability is also available.

DF530X HIGH-PERFORMANCE HYDRAULIC ROCK DRILL

Doofor DF530X is a new generation high-power and high-frequency rock drill for general excavations and quarrying. The rock drill is equipped with a hexagonal female chuck. The rock drill uses air or water flushing, high energy piston shape for good penetration speed in hard rock and good drill tool lifetime.

DF538L HIGH-PERFORMANCE HYDRAULIC ROCK DRILL

Doofor DF538L is a hydraulic drifter for general excavations, tunneling work, and mining. The drifter is designed for 38mm extension- and drifter rods. The Doofor DF538L has two rotation motors for high torque.

TECHNICAL SPECIFICATIONS

DOOFOR DF538L DRIFTER

NOMINAL POWER CLASS		13 kW	17.4 hp

DF540L HIGH-PERFORMANCE HYDRAULIC ROCK DRILL

Doofor DF540L is a hydraulic rock drill designed for bolting, general excavations, and underground production drilling. It has a very low overhead, only 82.5mm from the center line. The rotation motor of the DF540L can be installed on the right-hand or the left-hand side. Flushing media can be water or air. Optimized internal oil flow construction effectively preserves hydraulic power.

DIMENSIONS

DF560L can be equipped with BLT, EXT- and 2M options.

G1/4 Pressurised air-oil mist lubrication port

Flushing leak indicator hole

G1/2 Flushing
G3/8 Lubrication exit

2M **OPTION FOR HIGH TORQUE WITH TWO ROTATION MOTORS**

2M option replaces the gear box with two rotation motor version. It can be attached to the DF540L, DF550L and DF560L rock drills. The option improves the performance of the rock drill by increasing rotation torque.

2M-option can be combined with BLT- and EXT-options.

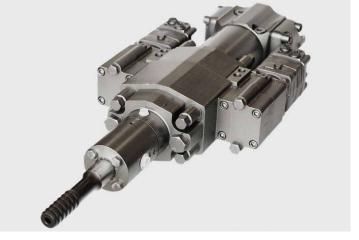

TECHNICAL SPECIFICATIONS

2M OPTION FOR DF540L, DF550L AND DF560L

ROTATION MOTOR MAXIMUM FLOW 1)	2x 80cc	160 l/min	42.2 gpm
	2x 125cc	180 l/min	47.6 gpm
	2x 160cc	180 l/min	47.6 gpm

EXT OPTION FOR IMPROVED PERFORMANCE

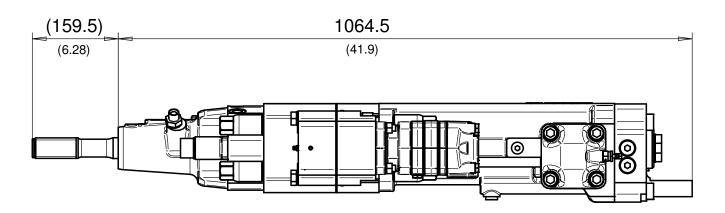

EXT-option attachs extractor (back hammer) to the rock drill. The extractor lifts the shank adapter back to the striking point, enabling more efficient removal of stuck drill steels from the rock and opening of the threads of lines of drill bars in extension bar drilling.

EXT-option is available for DF540L, DF550L and DF560L with standard flushing head. It can be used together with two-motor 2M-option.

EXT OPTION FOR DF540L

EXT OPTION FOR DF550L AND DF560L

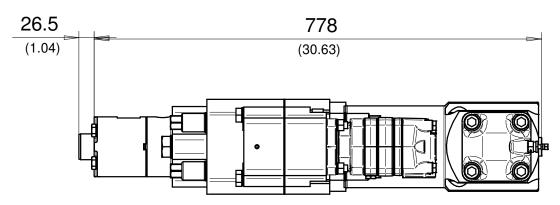

BLT **OPTION FOR BOLTING AND GROUTING**

BLT-option changes the flushing head of the rock drill. It has three basic variants: short flushing head for bolting, long flushing head with extra seals and special grouting flushing head. BLT flushing heads can also be used for tunneling and general excavations.

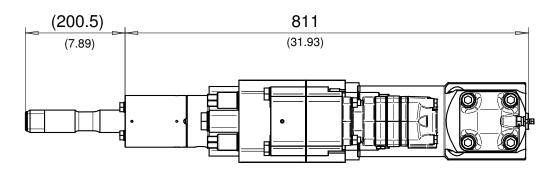

The BLT-option can be used with DF540L, DF550L and DF560L rock drills. It can be used together with 2M-option. The BLT-option requires special shank adapters. Short flushing head can use female R32 shank adapter.

BLT OPTION FOR DF540L

Short variant.

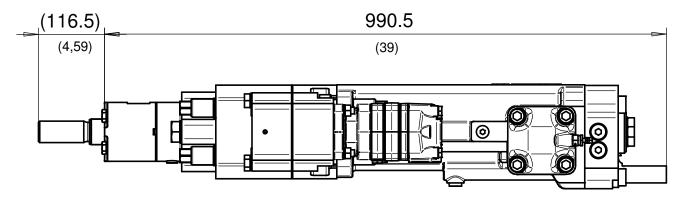

Long / grouting variant.

DF800-SERIES HIGH-PERFORMANCE HYDRAULIC ROCK DRILLS

The newcomer of the Doofor rock drill family, the Doofor DF800 is a next-generation high-frequency hydraulic rock drill. The drill has two versions, the DF800L and DF800S. With rotation motor on the left or on the right side, the DF800L has a low overhead of 100mm from the drill center line. The DF800S version has motor on the top side of the drill.

Patented percussion channeling minimizes the number of parts requiring service and makes this rock drill one of the peak products in power to weight ratio. With modular design the rock drill is one of the easiest and effortless rock drills in the market to service. The rock drill has hydraulic cushioning and extractor as standard features. Protected by various patents.
